info@pillarlifeinsurance.com

What's the PillarMAX Offering?

The PillarMAX offering provides guaranteed interest rates for the length of your term.* For example, if you purchase a 3 year MYGA at 6.00%, you are guaranteed a 6.00% return, compounded annually, throughout the 3 year duration.

What does this mean for you? **Guaranteed, reliable growth that aligns with your financial objectives.**

How do I apply for PillarMAX?

The easiest and fastest way to get started is with our simple online application process which can take as little as 15 minutes! You can start by visiting my.pillarlife.com.

We have numerous resources at your disposal if you need some guidance, including a YouTube tutorial video, customer support via email, phone, or chat. One of our representatives would be more than happy to guide you through the process.

The Benefits of Tax Deferred Growth

One of the biggest advantages of an annuity from Pillar is tax deferral.

Tax-deferred growth means you don't pay taxes on the gains until you withdraw funds. This tax break allows your money to compound faster since you're not losing any to taxes each year. If you're in a lower tax bracket when you take withdrawals in retirement, like many people are, you'll pay less in taxes overall. Tax deferral gives your nest egg room to grow.

The PillarMAX Advantage

- ✓ Grow your money tax-deferred with guaranteed, competitive rates
- ✓ No gimmicks – no commissions, no account charges, or other fees
- ✓ No middleman – we are the insurance company, not an agency
- ✓ Access your account at anytime, from anywhere
- ✓ Industry leading customer support via chat, email or phone at no charge

Overview of Surrender Charges

What are surrender charges? Surrender charges are essentially a penalty for withdrawing your money before the end of the term you selected.

At Pillar, we understand that life happens and situations arise when you need access to your funds. We offer 10% withdrawal of your account value at the end of each year of your term. For example, if you put in \$100,000 at a 3 year term at a 6% interest rate, at the end of the first year, you'll have an account value of \$106,000. At the end of the first year, you can withdrawal \$10,600 at no cost.
